General Assembly

Remote | Received 2021

Activities: Small Biz Hackathon

#### Bachelor of Arts in Psychology

Stony Brook University

Stony Brook, NY | Received 2013

### PROFILE

I'm a software engineer with more than 3 years of technical experience. **After spending 4 years working on my own venture in the financial services industry**, I seek new opportunities to effect positive social change with my technology skills. My greatest strength is my attention to detail and finding innovative ways to address challenging issues and solve complex problems.

### PROJECTS

#### BETTER BUS TIME

MONGODB, EXPRESS, REACT, NODE.JS | FEBRUARY 2021

- Processes **300+ bus routes** from the MTA OneBusAway API.
- Displays **real time bus arrival information** from the MTA SIRI API.
- Remembers registered users' favorite routes and stops.

#### TIMES SAY

REACT, REACT BOOTSTRAP, HTML, CSS | JANUARY 2021

- Displays movie reviews from The NYT API, spanning **29,000+ articles**.
- Matches reviews to movie posters from The Movie Database API.

### EXPERIENCE

#### ENGINEER II

STEALTH STARTUP | SEATTLE, WA | MAY 2021 - PRESENT

- Deployed HIPAA compliant claims ingestion infrastructure using **AWS EC2, SNS, S3, and Glacier** from inception to completion over **8 weeks**.
- Realized POC app design with **1 codebase for 3 platforms using Flutter**.
- Wrote **Bash scripts** to streamline common administration via **AWS CLI**.

**TIME GAP / Launched insurance brokerage / FEBRUARY 2016 - MARCH 2020**

#### SOFTWARE ENGINEER

PORTABLE TECHNOLOGY SOLUTIONS | CALVERTON, NY | JANUARY 2013 - NOVEMBER 2015

- **Redesigned UI** of desktop Windows applications **over 12 weeks**, improving usability and aiding feature discovery.
- **Maintained** sprawling code base across **1 Android** and **3 Windows applications** using Javascript, HTML, CSS, Java, and C#.
